My cozy home

Every person has a dream to make his/her apartment or house in a way of comfortable nest, where in the morning it's pleasant to wake up surrounded by things that delight the eye, and in the evening – to have a cup of tea with children or friends. Such atmosphere can be created only by the owners, at the same time this catalogue will help in selecting high-quality and stylish furniture for home.

The main approach that is followed by the specialists while developing furniture – comfort and convenience for user.

Their aim is your comfort, they work out new models of furniture in order you could easily and rapidly choose an armchair in tune with sofa or color of bookshelf, in order you could add new colors to your home just changing the bedcover. They are working to make your life delicious, because when the things at home make you happy – the mood improves and desire to create appears.

Chairs for cafes, bars, restaurants

Conciseness of designer's decisions and style are main characteristics of these chairs for cafes, bars and restaurants. Soft metallic glance adds modern appearance to this furniture. At the same time the lack of extreme, softness of geometric forms make it universal and it easily fits any interior. Chairs are maximally functional, comfortable, aesthetic and undemanding to cleaning.

We always think about your safety, that's why the professionals from Quality Laboratory make tests on durability and firmness of tabletops. They dropped down a weight of 30 kg on tabletops 10000 times. We test the chairs for tumbling (many adult people still continue to rock on chairs, we don't even mention children) and for endurance dropping down a weight of 100 kg on seat 10 000 times.

Table bases

Combining compactness, pithiness of forms and possibilities of different combinations of tops, bases for tables have become indispensable helper in equipment of cafes and bars. Clear lines, balanced geometrics as well as convenience of placing the visitors – these are the main features of this type of furniture. In complex with tops that are resistant to outdoor influence (see page XX), the option of table is bounded only by your imagination.
